Montrose 2016: Quality score vs price per bottle (£)

Montrose maintained its 2015 release price in € terms, which means just a 6% increase in UK RRP. With the Quality score up significantly on 2015 and even above that of 2010 and 2009 which command much greater market prices, the 2016 looks like a good buy.

Antonio Galloni

“The 2016 Montrose is a wine of remarkable depth, density and power.”

“Surprising density, even compared to the usual standards, intense, mineral, of wonderful precision, underlining the current level of work put in by the big properties of the Médoc.”

Jancis Robinson

“Great, fresh, minerally savour on the nose. Lots of intensity initially. Sweet start – quite a surprise in a way – and then lots of structure. Doesn't quite hang together yet but there is masses of potential. Sweet, fresh ink. Good raciness [...].”
